This may be tube feeding intolerance*.

PEPTAMEN® may help because it contains:

- **Small, easy-to-digest proteins**
- **Small, easy-to-absorb fats**
- **100% WHEY PROTEIN**

**SMALL PROTEIN UNITS** — Easy for the body to digest and use, which helps with tube feeding tolerance

**SMALL FAT UNITS** — Easy to absorb, which helps with tube feeding tolerance

**100% WHEY PROTEIN** — Empties quickly from the stomach and helps with reflux and vomiting

*If you experience any of these symptoms or have a problem with your tube feeding, talk to your healthcare professional.
